Generic Viagra Availability Viagra is a brand name of sildenafil, approved by the FDA in the following formulation s: Osmolex ER Osmolex ER amantadine hydrochloride is a proprietary formulation of immediate release and If a study is submitted that demonstrates bioequivalence to a specific listed drug product, the generic product will be given the same three-character code as the reference listed drug it was compared against. On Monday, generic versions of Viagra, the blockbuster medication used to treat erectile dysfunction, became available in the US. Available for Android and iOS devices. The name Viagra is still a brand name which only Pfizer can use. These medications may be counterfeit and potentially unsafe. In , Pfizer received FDA approval to license the product for the treatment of erectile dysfunction. Sildenafil is produced by several manufacturers and contains the exact same medical ingredient and dosage as the branded Viagra counterpart. This material is provided for educational purposes only and is not intended for medical advice, diagnosis or treatment. Jun 14, - And while generic Revatio is available only in a mg strength Viagra comes in , , and mg tabs not to worry: Your doctor can prescribe the most appropriate equivalent dose. "The 5-mg difference between sildenafil and the lowest dose of Viagra could easily be made up by taking an extra half. Dec 11, - Pfizer says the current wholesale cost for a 50 milligram or milligram Viagra is \$ a pill. Greenstone will sell the generic version for between \$30 and \$35 a pill. However, both of those figures represent the price the drug maker charges. A number of variables affect the final cost a consumer pays. A brand name drug like Viagra, is marketed by a pharmaceutical company which holds the patent. An alternative to Viagra is made with the same active ingredients and the same dosage as the brand version, but is sold under its chemical or 'generic' name. This can only happen when the patent expires. In the patent. A generic version of Viagra has been approved by the FDA. However, this does not mean that the product will necessarily be commercially available - possibly because of drug patents and/or drug exclusivity. The following products are equivalent to Viagra and have been approved by the FDA. Dec 11, - Pfizer Inc will bring its own generic version of its erectile dysfunction (ED) drug Viagra (sildenafil citrate) to the United States market today, seeking to preserve some sales as generic competition starts up for one of the world's most famous drugs. Teva Pharmaceutical Industries Ltd is launching its rival. A: Although Teva's generic version of Viagra will be marketed at a lower price than brand-name Viagra, it may not be sharply lower. Much depends on Pfizer's pricing strategy for its brand-name version of the drug after the start of generic competition. A price war could bring prices for both generic and brand-name drugs. Jan 11, - It's been a long wait, but the first generic version of Viagra should be available in U.S. pharmacies before the end of Teva Pharmaceuticals USA, the American subsidiary of Israeli-based Teva Pharmaceutical Industries Ltd., won the right to produce a generic formulation of Pfizer's little blue pill after a. May 16, - Viagra and sildenafil are medically the same. It is a requirement for the generic version to contain the same levels of the active ingredient in the body as its branded alternative, which is known as bioequivalence. Before generic drugs are licensed for sale the manufacturer must demonstrate bioequivalence. Dec 6, - Drugmaker Pfizer is launching its own cheaper generic version of Viagra rather than lose most sales when the impotence pill gets its first generic competition next week. Dec 6, - But Viagra's patent (sildenafil at doses for ED) is scheduled to expire in April, which undoubtedly will give rise to a number of generic versions. But, as CBS News reported previously, a deal negotiated four years ago will allow Teva Pharmaceuticals USA Inc. to begin selling a generic version in the.
