Nobody ought to shrink from having his name published as that of a participant in the good work of reviving this unrivaled index of contemporary medical literature, an index that, we think, might well serve as a model for undertakings of the sort in other branches of literature; and every well-known name that is published is likely to stimulate individual members of the profession to join in the enterprise. It is a great pity that there has had to be any break in the continuity of its issue, but the break is not yet irremediable. When the umbilical cord was cut Dr. We are persuaded that a hint as to this point will be all that is needed, and that the work of re-establishing the Index Medicus will soon be in a fair way toward completion. Bureau mentioned the case of a woman who, having been addicted to the use of morphine for about seven years, had got to the point of taking fifteen grains a day when she was delivered of a child. This, we think, it would be very well for him to do. Dupre, there is a description, under the title peritonisme, of an interesting class of cases occurring " frequently enough " which present the syndrome of peritonitis but without any anatomical lesion. The desire of the authors, as stated in the preface, has been to " relate facts and describe methods," and to this object they have very strictly adhered, so that little matter of a theoretical nature has been introduced. One is somewhat surprised at the small amount of space allotted to diseases of the endometrium and at the classification of chronic inflammation of the lining membrane of the cervix and body of the uterus together, which is perhaps in some respects an innovation. It will be creditable if other individuals, not content with subscribing themselves, constitute themselves canvassers among their friends. In the section on diseases of the peritoneum, by E.
