So I can not imagine anything is wrong with the active ingredient s. Qualitest to me is the worst when it comes to Vicodin or Oxycodone IR. I do not see much difference. Only two real possibilities- 1-It's placebo. After going back to Watson I can't believe I took that Mallinckrodt junk for 3 months. I can't say if it was placebo, but they did almost nothing for me. Then they come on here and say "oh the FDA wouldn't allow one brand to be more effective than the next - therefor it's a placebo". We comply with the HONcode standard for trustworthy health information - [verify here](#). Even better than brand Roxies. I will also never use CVS again due to selling poor quality manufactures of it generics and poor customer service. If you compared one dose of Mallinckrodt to one dose of Qualitest and paid very careful attention to the onset, coming up effect, climax, plateau, and come down effects of both brands you would agree that the Mallinckrodt brand is garbage. I so wish I could get high on 2 vicodin again.. I read on this site how many people think it's some kind of placebo effect that Mallinckrodt's suck so I just did a cold water extraction and like magic, Mallinckrodt hydrocodone felt like other brands. Jan 9, - Today the pharmacy pulled another switch on the generic 10/ Percocet first I got Endocet then Mallinckrodt now today I got Amneal never heard of this .. at the same pharmacy that I have always used and didn't realize until I got home that my pills were switched to another brand marked on the [annunciaturatuitiweb.com](#) brand for percocet 10/? (Acetaminophen and Oxycodone mg / 5 mg) Pill with imprint is White, Round and has been identified as Acetaminophen and oxycodone hydrochloride mg / 5 mg. Acetaminophen/oxycodone mg / 5 mg is classified as a Schedule 2 controlled substance under the Controlled. Mallinckrodt Inc. manufactures, markets and/or distributes more than 30 drugs in the U.S. WARNING. Hepatotoxicity Acetaminophen has been associated with cases of acute liver failure, at times resulting in liver transplant and death. Most of the cases of liver injury are associated with the use of acetaminophen at doses that exceed milligrams per day, and often involve more than one. Results 1 - 20 of 36 - I have a white circle pill with a line thru it on one side and the number on the other. I'm not sure if it's my percocet or my oxycodone? ## This tablet is manufactured by Mallinckrodt Pharmaceuticals and they list it as containing 5mgs of Oxycodone and mgs of Acetaminophen, which is a generic for. Mallinckrodt imprint percocets are shit too. Seriously I read on this site how many people think it's some kind of placebo effect that Mallinckrodt's suck so I just did a cold water extraction and like magic, Mallinckrodt hydrocodone felt like other brands. Unless this is also a placebo effect!
