What can I do to help relieve my indoor allergies? As such, they are less likely to cause drowsiness or memory impairment. By using this site, you agree to the Terms of Use and Privacy Policy. If you only develop upper respiratory symptoms at certain times of the year often spring or fall , you probably have seasonal allergic rhinitis, or outdoor allergies. Because the symptoms of itching and redness in these conditions are caused by histamine acting on the H 1 receptor, blocking those receptors temporarily relieves those symptoms. Ask a doctor before use if you have liver or kidney disease. Cetirizine does not undergo extensive metabolism. Cetirizine's properties of being effective both in the treatment of pruritus itching and as an anti-inflammatory agent make it suitable for the treatment of the pruritus associated with these lesions. Cetirizine acts as a highly selective antagonist of the histamine H 1 receptor. Seek medical help right away. Views Read Edit View history. This material is provided for educational purposes only and is not intended for medical advice, diagnosis or treatment. The equivalent dose of 60 mg cetirizine is also the highest dose ever administered in healthy subjects [13]. J Eur Acad Dermatol Venereol. All fields are required. Cetirizine hydrochloride tablets, 10 mg. Both products contain 10mg of cetirizine in the same citrus flavor and can be taken by both adults and children 6 years and older. What is an antihistamine?Is the over-the-counter version of ZYRTEC the same as the prescription strength? Yes. Today's ZYRTEC has the same exact strength as the version that required a prescription previously. Buy Zyrtec allergy, original prescription strength, 10 mg, tablets, 70 tablets and other Medicine & Health products at Rite Aid. Save up to 20% every day. Free shipping on orders \$ or more.
